

**EBREX's Solutions**

# **RESPONSE TO COVID-19 CHALLENGES**

The novel coronavirus **SARS-CoV-2** and resulting disease state **COVID-19** pose a direct threat to many countries around the world. Governments are reorganizing in order to monitor the population and prevent the spread of COVID-19

#### **NEW GUIDELINES**

Flows of guidelines from local authorities are requiring a set of responses and solutions to shortage of biological protection and test kits

On the other hand, a number of countries and organizations are implementing enhanced risk assessments on all citizens, such as Sanitary Inspections, evacuation and isolation of suspected cases, use of surgical masks, gloves, bio clean sterile coveralls, sanitizers, etc

For this matter, and due to the urgency of our client's requests, **EBREX Group** would like to grant and publicly available its company resources to ensure priority supplies to governments and local authorities of required solutions through strategic world wide partnerships with medically certified services and supplies providers to better deal with Uncertainty events like the COVID-19 PANDEMIA

**EBREX Group** can assure Products and Pre-qualified Manufacturers CE European Certified, Production capacity of products coming from manufacturers working 24/7 with large quantities already in the waiting list, supported by **EBREX Group** experience in managing this type of Crisis with a Reliable, Tested, Strong Supply Chain door-to-door service

# CONTENTS

1. KITS FOR THE DIAGNOSIS COVID-19
2. PERSONAL PROTECTIVE EQUIPMENT
3. MEDICAL EQUIPMENT
4. TEMPORARY SANITARY MODULAR SHELTERS
5. MEDEVAC SERVICES
6. INTRODUCTION : EBREX Group
7. WHY CHOOSE EBREX Group
8. POINT OF CONTACT

# COVID-19 CRISIS **OUR SOLUTIONS**

## **01 Kits for the Diagnosis COVID-19**

- Novel COVID-19 IgG/IgM Antibody Rapid Test Kit
- SARS-CoV-2 Real Time Laboratory PCR Detection Kit

## **02 Personal Protective Equipment**

- Antiviral masks, eye protection goggles, disposable bio gloves, disposable bio clean sterile coveralls, etc.
- Sanitizers, antibacterial hydrogel and disinfection wipe products 82% ethanol

## **03 Medical equipment**

- Ventilators, medical furniture and equipment

## **04 Temporary Sanitary Modular Shelters**

- Rapid deployments tents, modular buildings

## **05 MEDEVAC Services**

- Medical evacuation (Air / Sea / Land)
- International / National Bed-to-Bed service

# 01 Test Detection Kits

- Novel Coronavirus (2019-nCoV) IgG/IgM Antibody RAPID TEST KIT
- SARS-CoV-2/2019-nCov ORF1ab/N/E gene Real Time PCR Laboratory detection kits (SC-05)
- SARS-CoV-2 Real Time PCR Laboratory detection kits

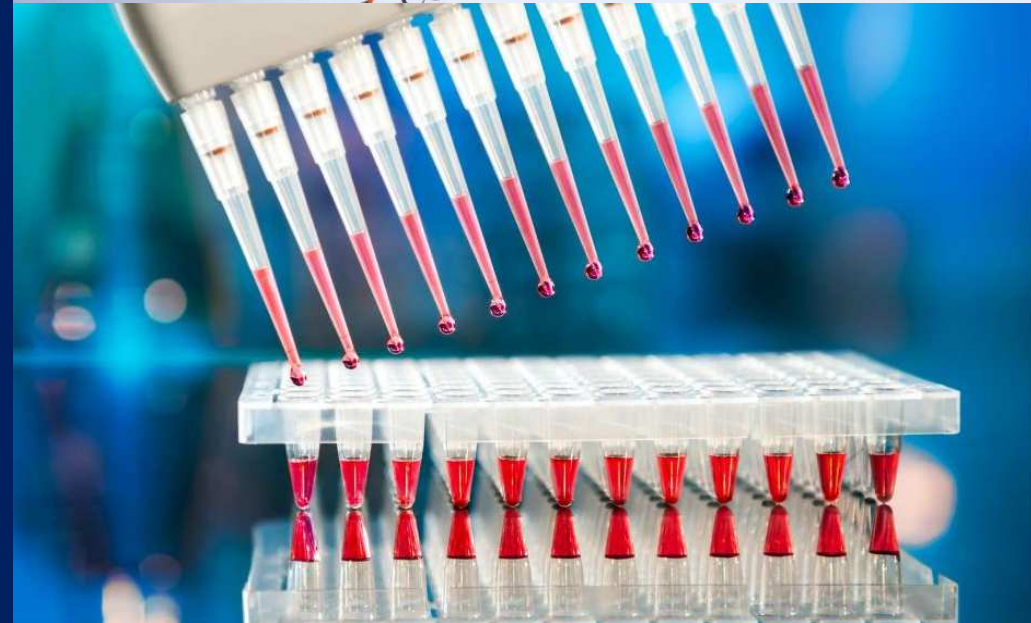

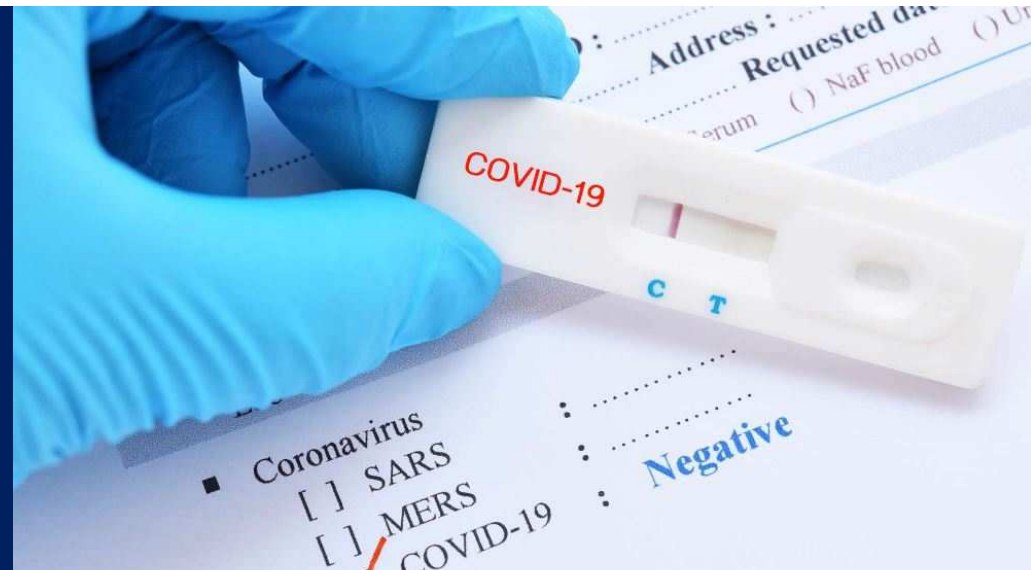

Note: Polymerase Chain Reaction testing "PCR"

Antibody Rapid Test Kit  
15' / 20' minutes

Real Time PCR  
Laboratory  
Detection Kit

## 02 PPE

### Disposal gloves

- Nitrile Gloves
- Latex Gloves
- PVC Gloves (same for left and right hand)

### Protective Coverall Suit

- Antistatic lightweight low-linting
- Clean Tough material
- Comfort & protection
- Hospital use
- Microporous Coverall Suit (with or without leg)

### Protective Eye glass

- Appropriately fitted
- Reliable practical eye protection from splashes, sprays, and respiratory droplet

# Face Masks

- Skin Friendly High Quality PP Material
- Low Breathing Resistance
- Bacterial Filtration Efficiency >98%
- Anatomic Adjustable Integrated nose bridge
- Different Types : Disposable Masks People / Police & Security Staff / Hospital Doctors & Assistants

**Medical  
Disposal Mask**

**KN95 / FFP3 PFM**

**N95  
Sterilized PFM**

# Sanitizer / Disinfection

**SANITIZERS**  
Alcohol Content >75%

**Alcohol Cotton Ball**

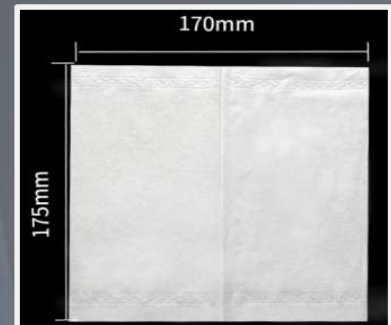

**DISINFECTION**  
Anti-Bacterial Liquid

**Roll Tissue**

**Alcohol Pad**

**Removable Tissue**

A compact turbine driven ventilator with multi-function, covers the non-invasive and invasive ventilation, and is suitable for treatment of most patient type. Its innovative expiration valve disassembling concept brings more ease and efficiency for the sterilization process

## 03 MEDICAL EQUIPMENT

Variety of light and durable furniture equipment as :  
foldable beds, chairs and tables, outdoor furniture, etc.

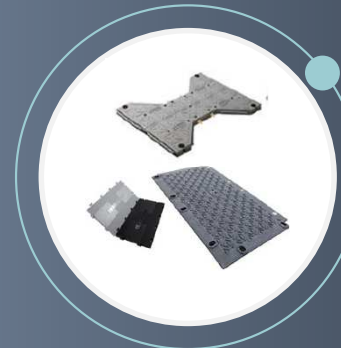

### VENTILATORS

### INFRARED THERMOMETER

Quick and easy to perform.  
Suitable for preliminary or emergency medical screening and for use in medical facilities with limited resources

### FLOOR

A surface system widely used by many key NATO forces, for military helipads, storage, shelter flooring, workshops and access-ways

### Hospital BEDS

with two and three adjustments

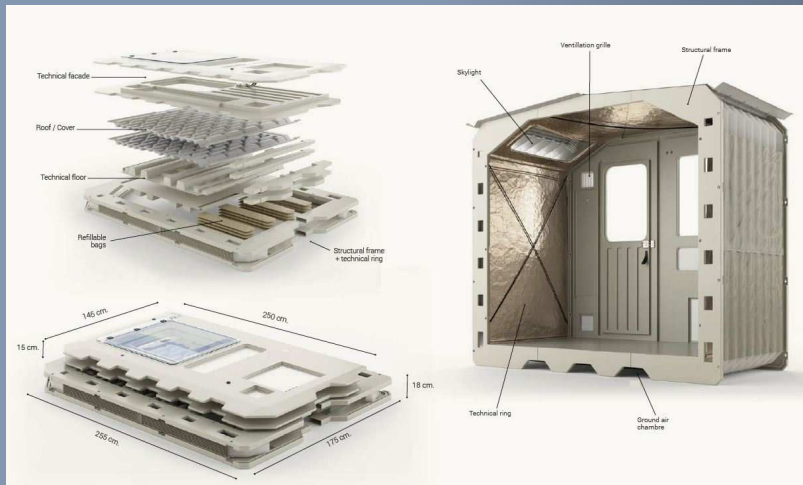

# 04 Temporary Sanitary Modular Shelters

Why South Korea was able to control the PANDEMIA COVID-19?

Because the South Korean Government decided to established TEST CHECK Points in all Cities in all neuralgic points applying RAPID TESTs massively to the population to understand who was infected

<b>Container dimension</b>	20' x 10' x 10' (6050 mm x 3050 mm x 3050 mm)	<b>Shelter dimension</b>	20' x 10' x 10' (6050 mm x 3050 mm x 3050 mm)

# Negative Pressure ISOLATION SYSTEM

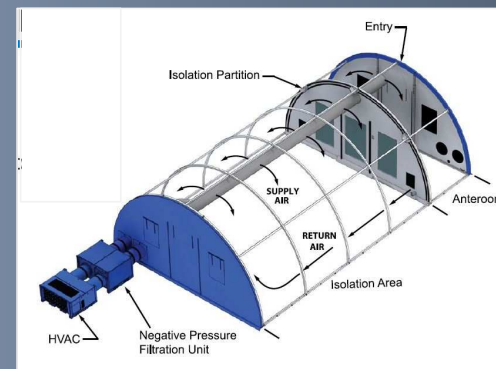

**Meets CDC guidelines set by the Healthcare Infection Control Practices Advisory Committee**

## System Features:

- ✓ Shelter and HVAC
- ✓ Negative Pressure Air Scrubber...  
HEPA and UV Germicidal Filtration
- ✓ Monitor Alarm system
- ✓ Variable Size Isolation Space & Anteroom
- ✓ System can be converted to a Positive Pressure Clean Room
- ✓ Single Shelter 10 Beds capacity  
Configurations for up to **200-Beds**
- ✓ Operational in 24 hours

**Note:** "Territories" exclusivity rights : Haiti, Spain, the Kingdom of Eswatini (former, Swaziland), the Republic of Kazakhstan, the Republic of El Salvador, the Republic of Turkey, the Kingdom of Belgium, the Republic of Djibouti, the Republic of Niger

## DEFENSE

Heavy duty pneumatic shelters for all weather conditions.  
Modular products  
Variety of configurations such as command post, mobile hospital, canteen, gym, workshop or warehouse.

## RESCUE

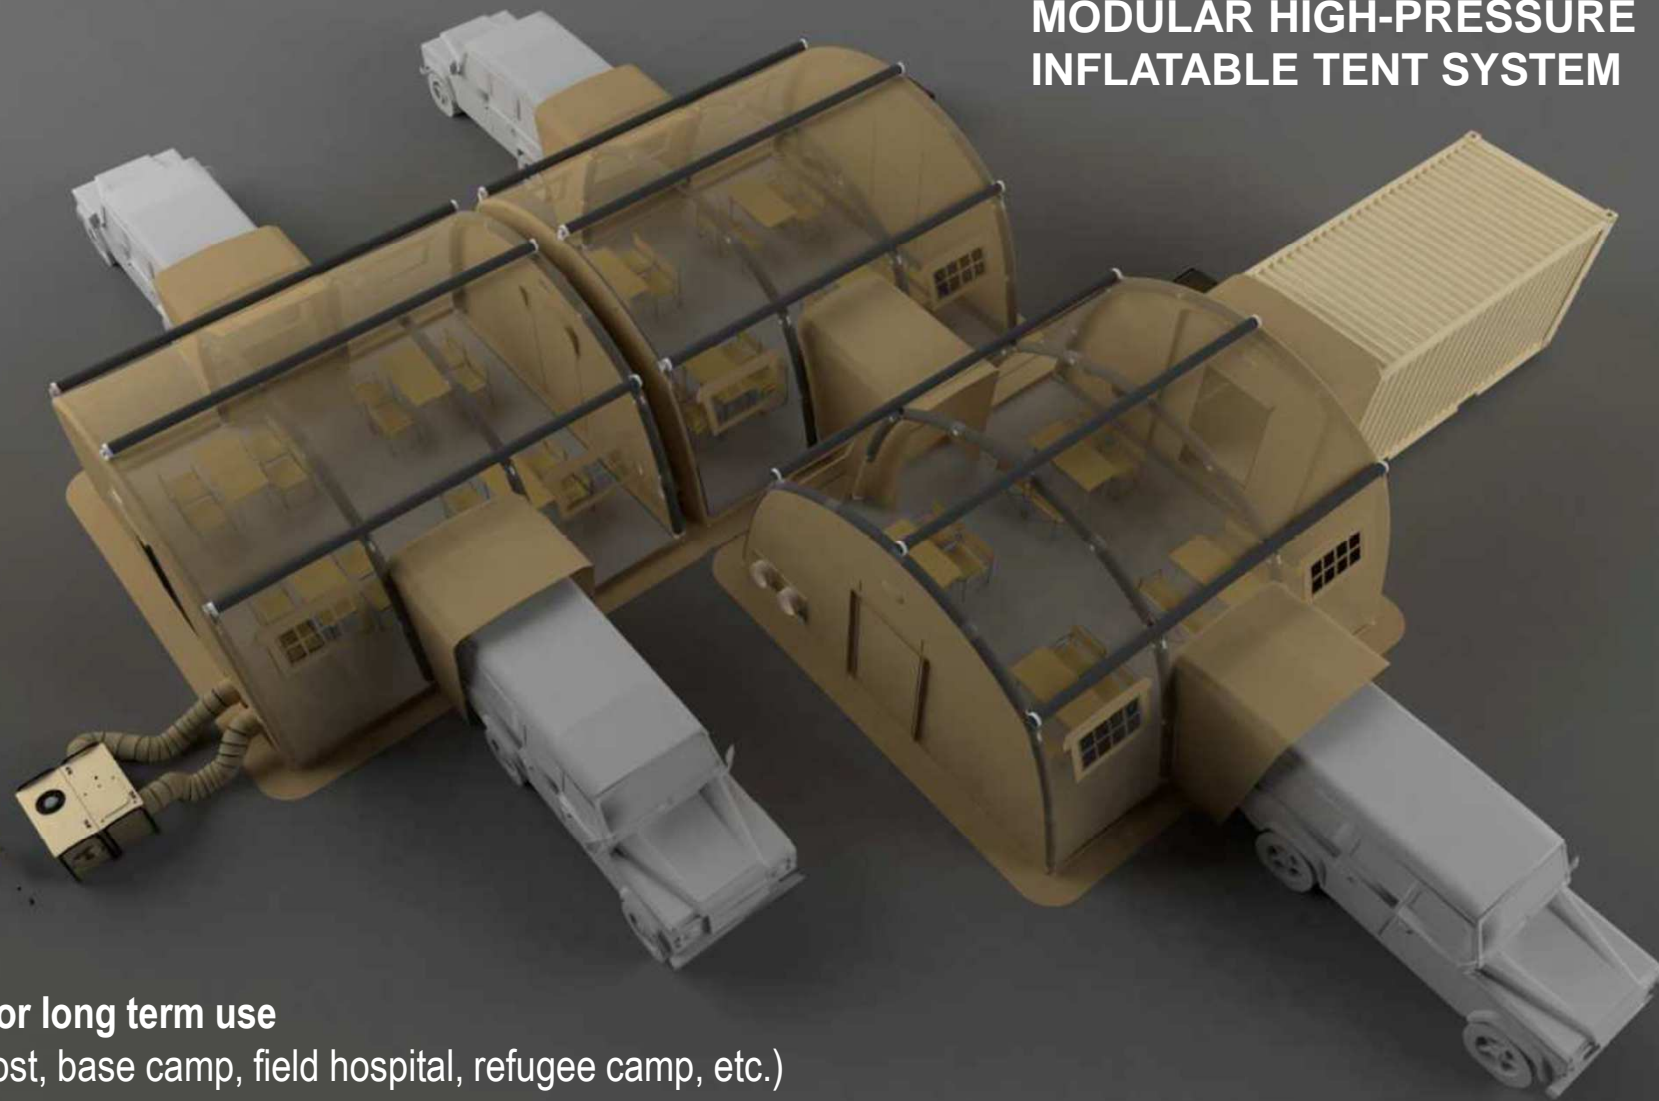

Light inflatable structures for emergency use, temporal use, or heavy duty structures for semi-permanent personnel or refugee accommodation; warehouse, field hospital, canteen, etc.

## INDUSTRY

Rapid deployment protection shelters for industry, construction site work or agriculture.  
All are made of high tech coated fabrics and from materials conforming to EU norms

## MODULAR HIGH-PRESSURE INFLATABLE TENT SYSTEM

**For general or long term use**  
(command post, base camp, field hospital, refugee camp, etc.)

# 05 MEDEVAC services

## Medical Evacuation (Air/Sea/Land)

Fully equipped air and land ambulances, with experienced medical personnel to ensure a safe journey from a ship any point in the world to the closest required hospital. To provide optimum care for patients, air ambulances are fitted with permanently installed intensive care equipment.

## International / National Bed-to-Bed Service

We make arrangements to take patients from a hospital bed abroad to a hospital bed at home. Our comprehensive bed-to-bed service not only includes an air ambulance flight; it also includes full ground service, such as the co-ordination of all journeys by ambulance.

## Healthcare Organization

As well as arranging transport by air ambulance, we also arrange your entire stay, if requested, and will help you to choose an appropriate specialist clinic for your medical treatment. Our international, multilingual team helps to facilitate optimum communication between all parties.

## Coordination with local sanitary authorities

With the Coronavirus pandemic, International Health Regulations have strengthened surveillance and response at designated points of entry (PoE), we offer guidance on containment strategies, preventive measures, detection, risk assessment and case management, as well as effective leasing with the local port / health / sanitary authorities.

# 06 EBREX

**EBREX** a Swiss Company (Sarl.) based in Geneva

**EBREX Group** comprises EFS EBREX Sarl., EBREX DMCC, EBREX Cruise Services SAM, BLACK BULL Group, ES-KO Group with main platforms in : The Principality of Monaco, Sevilla Spain, Miami US, Dubai, Geneva, Rome Italy and Singapore

For over sixty (65) years, “The Group” has successfully completed projects ranging from international organizations engaged in peacekeeping missions and food relief missions to governmental agencies engaged in reconstruction and development programs, and the Humanitarian Sector

**EBREX** delivers door-to-door support options, including: Supply Chain management, Logistics, transportation and distribution of food, equipment, supplies and goods (which include without limitation, health and medical supplies, equipment and consumables); Marine & Aviation Fuelling support / Bunker, Husbandry services, procurement and subsistence prime vendor

services, port marine services, Modular Construction Technologies (such as modular clinics, modular hospitals and negative pressure shelters for healthcare infection control) as well as maintenance and more to any location, no matter how remote, no matter the circumstances with complete precision, fully compliance and on-time delivery :

□ US Gov Contract : Support to the US Government's Defense Logistics Agency in Liberia, following the emergency deployment due to **EBOLA Virus** outbreak in the region (3,000 US Army personnel deployed in 12 different locations through the region in 2014)
