

DISASTER RELIEF

A Black Diamond Camp in Chico California houses over 1,100 workers rebuilding Paradise after the devastating fire in 2018.

EMERGENCY PLANNING AND RAPID RESPONSE. IN ANY ENVIRONMENT

When catastrophic events occur, the risk affects everyone. Whether that risk is from the impact of the disaster itself - hurricane, fire, tornado, flood - or from the aftermath of the event, a well executed plan is vital to ensure that quality of life in the affected area is quickly restored.

Black Diamond Group is a trusted partner for emergency response teams across the globe. Our ability to assist in developing a response plan well before disaster strikes, allows us to move rapidly and efficiently. Deploying reliable and relocatable space solutions enables critical services to be up and running in a matter of hours. We provide front line response teams with world-class accommodations. Our equipment is geographically dispersed, ready for mobilization. This means we save precious time and money when every second and every dollar are critical.

In addition to Disaster Relief planning and consulting, Black Diamond Group can rapidly deploy a wide variety of critical assets and the site services necessary to house staff and crews.
