

Capability Statement

CORE COMPETENCIES

Palomar Modular Buildings designs and manufactures advanced modular buildings for a range of industries both public and private. As one of the few direct manufacturers in the modular construction industry Palomar eliminates the considerable costs associated with selling through a dealership network by selling directly to our customers.

Palomar's modular construction method creates significant cost savings and quickly produces buildings in a fraction of the time compared to conventional construction. The controlled fabrication environment and efficient construction cost strategies Palomar employs can result in cost savings of up to 20% compared to conventional construction. Our production efficiency, combined with our manufacturing environment, eliminates weather related delays and allows us to complete projects up to 50% faster than stick-built construction.

DUNS 966629136
CAGE Code 68WN3

NAICS Codes _____
236210 Industrial Building Construction
236220 Commercial and Institutional Building Construction
321991 Houses, Prefabricated, Wood, Manufacturer
332311 Prefabricated Metal Buildings
321992 Prefabricated Wood Building Manufacturing
531120 Lessor of New Residential Buildings

SIC Codes _____
2451-0201 Mobile Buildings for Commercial Use
2451-0202 Mobile Classrooms

Federal Supply Classification 5410 Prefabricated/Portable Buildings

Bonding Capacity
\$5 mm per project | \$10 mm aggregate
